ANNUAL REPORT-ACADEMIC YEAR 2023-2024

I am pleased to present the annual report for the academic year 2023-2024. Sudharsan Engineering College was established in the year 2000 with the objective of delivering high-quality education to ambitious and aspiring students. Our guiding principle is "To fortify our nation through the provision of valuable education to society." The college has experienced numerous developmental initiatives during this academic year.

The academic activities of the college for the academic year 2023-2024 commenced on July 27, 2023. A total of 210 students were enrolled across all seven disciplines.

We have implemented 12 value-added courses aimed at enhancing student knowledge, benefitting a total of 260 students. This initiative has empowered the students to augment their subject competency and expertise in their selected disciplines. The mentor-mentee system is integral to the development of students for a more promising future. Each mentor is assigned 15 mentees and is continuously engaged in facilitating and guiding the students towards success. To monitor the progress in student performance, we frequently convene Student Academic Council meetings. A total of 220 students successfully participated in internships, fieldwork, and completed projects as part of their academic curriculum.

For the purpose of optimizing educational outcomes, Sudharsan Engineering College boasts a constructed area of 100,000 sq. ft., which encompasses a library, twelve computer laboratories, three seminar halls, restrooms on every floor, and well-appointed staff offices. All instructional spaces are appropriately equipped with desks, green ceramic boards, pin-up boards, and five ceiling fans. The library is notably expansive, occupying 3,000 sq. ft., and features designated study areas tailored for all academic programs. Furthermore, the library offers access to DELNET, E-Books, E-Journals, among other resources. It is also equipped with advanced technological amenities, including a barcoding system and a high-tech digital library. Comprehensive oversight of examination coverage, result analytics, student attendance, and syllabus completion has been effectively facilitated through the implementation of ERP software.

Our administrative body has demonstrated a commitment to supporting academically gifted, athletically proficient, and economically disadvantaged students by providing scholarships during the admission process in the form of fee waivers. A total of 76 students have benefited from management scholarships amounting to Rs. 3,135,000/-. Additionally, 473 students have been recipients of various scholarships awarded by governmental organizations, totaling Rs. 12,500,000/.

Sudharsan Engineering College establishes an environment that facilitates each student in demonstrating their capabilities, organizational acumen, and collaborative abilities. The institution provides students with valuable experiences through various support cells and clubs. Our college actively promotes co-curricular and extra-curricular engagements aimed at the comprehensive development of our students. Two hundred students have benefitted from the guidance provided for competitive examinations and career counseling facilitated by the institution.

To foster a sense of patriotism among students, our college commemorates Independence Day and Republic Day annually. Sangamam is organized each year to extend a warm welcome to incoming first-year students. J.G.R.Sathiyasselan, Vice-Principal, Bishop Heber college and Dr.E.S.Parveen Sulthana, Speaker was invited as the chief guest, where he delivered an inspiring address highlighting the significance of education and personal development. To promote and preserve cultural heritage, Sudharsan Engineering College organizes a variety of celebrations, including Gokulashtami, Navratri, Onam, Pongal, and Diwali.

Students acquire insights into the cultures and traditions of diverse regions, as well as knowledge regarding significant monuments of art and architecture through educational excursions. Regular visits to various factories are arranged for the students.

Students engaged in approximately 50 sporting and cultural activities. Our athletic team excelled in all competitions, garnering accolades for their exemplary performance and demonstrating their achievements. Throughout this academic year, students secured 8 awards and medals for their exceptional contributions to sports and cultural endeavors at both national and international levels. A total of 12 extension and outreach initiatives were undertaken in partnership with various industries. During the academic year 2023-2024, 47 workshops, seminars, and conferences focusing on research methodology, intellectual property rights, and entrepreneurship were organized. Feedback from alumni, parents, educators, and employers is systematically collected each year to facilitate institutional improvement.

During the academic year 2023-2024, there were 70 full-time faculty members employed. All academic staff was motivated to pursue doctoral degrees and to publish scholarly articles in prestigious journals. In total, 58 faculty members participated in professional development programs at various institutions, while 17 administrative staff members engaged in training programs provided by our college. Faculty members received financial assistance to attend conferences, workshops, and related events. In this academic year, 50 faculty members participated in several programs with a financial support amounting to Rs. 2,70,000/-.
