## ANNUAL REPORT-ACADEMIC YEAR 2024-2025

I am honored to submit the annual report for the academic year 2024-2025. Sudharsan Engineering College was founded in the year 2000 with the mission of providing exemplary education to driven and ambitious students. Our foundational ethos is encapsulated in the principle: "To strengthen our nation via the provision of meaningful education to society." The institution has undergone a myriad of developmental initiatives during the current academic year.

The academic endeavors of the institution for the academic year 2024-2025 commenced on August 12, 2024. A cumulative total of 126 students were enrolled across seven distinct disciplines, which notably included the introduction of an innovative program in Artificial Intelligence and Machine Learning (AI&ML).

We have instituted 13 value-added courses designed to enhance student knowledge, benefiting a total of 280 students. This initiative has equipped the students to elevate their subject proficiency and expertise within their chosen fields. The mentor-mentee system is pivotal to the holistic development of students, fostering a more promising future. Each mentor is entrusted with 15 mentees and is actively engaged in facilitating and guiding the students toward academic success. To assess student performance effectively, we regularly convene meetings of the Student Academic Council. A total of 250 students successfully engaged in internships, fieldwork, and completed projects as integral components of their academic curriculum.

In pursuit of optimizing educational outcomes, Sudharsan Engineering College features a constructed area of 100,000 sq. ft., which includes a library, twelve computer laboratories, three seminar halls, restrooms on every floor, and well-appointed faculty offices. All instructional environments are suitably outfitted with desks, green ceramic boards, pin-up boards, and five ceiling fans. The library is particularly expansive, covering 3,000 sq. ft., and provides designated study areas tailored for all academic programs. Moreover, the library grants access to DELNET, E-Books, E-Journals, among a plethora of other resources. It is also furnished with cutting-edge technological amenities, including a barcoding system and a sophisticated digital library.

Comprehensive oversight of examination coverage, result analytics, student attendance, and syllabus completion has been proficiently enabled through the implementation of ERP software.

Our governing body has exhibited a steadfast dedication to the advancement of academically talented, athletically adept, and economically challenged students by facilitating scholarships throughout the admissions process in the form of fee waivers. A cumulative total of 36 students have reaped the benefits of management scholarships aggregating to Rs. 1,135,000/-. Furthermore, 437 students have been beneficiaries of diverse scholarships conferred by governmental entities, culminating in a total of Rs. 9,500,624/.

Sudharsan Engineering College cultivates an environment conducive to the manifestation of each student's potential, organizational proficiency, and collaborative competencies. The institution avails itself of valuable experiential learning opportunities through an assortment of support cells and clubs. Our college ardently endorses co-curricular and extra-curricular participation aimed at the holistic development of its students. A cohort of two hundred students has availed themselves of the guidance offered for competitive examinations and career counseling orchestrated by the institution.

In an effort to instill a sense of nationalism among the student populace, our college annually observes both Independence Day and Republic Day. The event Sangamam is conducted each year to extend a cordial welcome to incoming first-year scholars. Dr. Karthik Velu, an eminent motivational speaker, was invited as the chief guest, during which he delivered a compelling address elucidating the importance of education and personal growth. To foster and sustain cultural heritage, Sudharsan Engineering College orchestrates a myriad of celebrations, including Gokulashtami, Navratri, Onam, Pongal, and Diwali.

Students gain insights into the cultural practices and traditions of various regions, as well as knowledge regarding significant monuments of art and architecture through educational excursions. Regularly scheduled visits to diverse manufacturing facilities are arranged for the students.

Students participated in approximately 45 sporting and cultural endeavors. Our athletic team excelled in all competitions, securing honors for their outstanding performance and showcasing their accomplishments. Throughout the current academic year, students attained 11 awards and medals for their exceptional contributions to sports and cultural pursuits at both national and

international levels. A total of 13 extension and outreach initiatives were executed in collaboration with various industries. During the academic year 2024-2025, 42 workshops, seminars, and conferences focusing on research methodologies, intellectual property rights, and entrepreneurship were convened. Systematic feedback from alumni, parents, educators, and employers is collected annually to enable institutional enhancement.

During the academic year 2024-2025, there were 63 full-time faculty members employed. All academic personnel were encouraged to pursue doctoral degrees and to disseminate scholarly articles in esteemed journals. In total, 54 faculty members engaged in professional development programs across various institutions, while 18 administrative staff members participated in training initiatives offered by our college. Faculty members were afforded financial assistance to attend conferences, workshops, and related events. In this academic year, 42 faculty members participated in multiple programs with a financial support totaling Rs. 2,23,200/-.

The institution has conducted a thorough assessment encompassing a green audit, an energy audit, and an environmental audit. The institution has been distinguished as the preeminent green campus.

The total number of students who engaged in the final semester examination amounts to 113, among which 85 students have successfully achieved passing status in the examination. A total of 79 students have attained employment within various corporate entities, while 06 students are actively pursuing further academic qualifications. In the current academic year, we have formalized Memoranda of Understanding with 55 esteemed industries and organizations. A biogas facility has been instituted as a pivotal element of the green energy initiative.
